

Table 1 Cultivated Taxa Found in Tell Leilan Flotation Samples

Common name	Latin name	IIIa-b	IIIc	IIa	IIb
Cereals					
Two-row hulled barley	<i>Hordeum vulgare</i>	x	x	x	x
Emmer wheat	<i>Triticum dicoccum</i>	x	x	x	x
Durum wheat	cf. <i>T. durum</i>	x	x	x	x
Pulses					
Lentils	<i>Lens culinaris</i>	x	x	x	x
Chickpeas	<i>Cicer arietinum</i>	x	x	x	x
Field peas	<i>Pisum sativum</i>	x	x	x	x
Bitter vetch	<i>Vicia ervilia</i>	x	x	x	x
Grass pea	<i>Lathyrus sativus</i>	x	x	x	x
Other Cultivars					
Grapes	<i>Vitis vinifera</i>		x	*	x
Flax	<i>Linum usitatissimum</i>	x	x		x
Ficus	Fig		x		x

* The lack of fruit and flax in samples from Period IIa probably reflects the contexts (primarily Acropolis storerooms) that have been studied thus far. The foods would almost certainly have been found at Leilan at this time, given that they occur in periods prior to and after IIa.
